

Dhiaeddine Zouaghi

Software Engineer · .NET · Angular · Azure

+49 179 156 1500 | [Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Hamburg, Germany

PROFESSIONAL SUMMARY

Software Engineer with 4 years of experience in enterprise .NET and Angular development. Track record spanning API design, frontend migrations, CI/CD pipelines, and cloud performance work on Azure. Microsoft-certified Azure Developer (AZ-204). Currently building a portfolio application end-to-end with .NET 8, React, Docker, and Kubernetes to deepen cloud-native skills independently. Based in Hamburg, open to opportunities in English or French.

TECHNICAL SKILLS

Languages: C#, TypeScript, Python, JavaScript

Frameworks & Libraries: .NET Framework, .NET Core / .NET 6–8, Angular, React (learning), Entity Framework, WCF

Cloud & DevOps: Azure (Functions, Blob Storage, Logic Apps, Application Insights), Azure DevOps, Docker, CI/CD (YAML & Classic pipelines), Kubernetes (learning)

Databases: MS SQL Server, MongoDB

Testing & Tools: xUnit, Postman, SoapUI, Application Insights / KQL, Git, GitHub, TFS, Jira, Confluence, Redgate, Visual Studio, VS Code

Practices: Clean Architecture, SOLID Principles, RESTful API Design, Agile/Scrum, Code Review, Technical Documentation

EXPERIENCE

- | | |
|--|--|
| CED Tunisia
<i>Software Engineer, Full-Stack (.NET / Angular)</i> | Oct. 2022 – Mar. 2026
<i>Tunis, Tunisia</i> |
| <ul style="list-style-type: none">– Delivered and maintained modular RESTful APIs in .NET 6 consumed across 6 Angular projects, reducing cross-service coupling and improving frontend delivery speed.– Led solo migration of 5 Angular 4 applications to Angular 13+ and contributed to a 6th as part of a team, modernizing the frontend stack and eliminating legacy framework debt.– Investigated critical CPU spikes (20–90%+ on individual APIs) using Application Insights and KQL, identified root causes, and collaborated with infrastructure engineer on targeted scaling, recovering system stability and unblocking 1,000+ stalled records.– Extended CI/CD pipelines and co-built YAML deployment workflows with reusable templates, improving release consistency across environments.– Introduced structured documentation using Mermaid diagrams and automated wiki publishing via CI/CD pipelines, transforming documentation culture within the team.– Mentored junior developers and interns through code reviews, enforcing API design, testing, and version control best practices. | |
| CED Tunisia
<i>Graduate Intern, Full-Stack & Data Science</i> | Feb. 2022 – Jul. 2022
<i>Tunis, Tunisia</i> |
| <ul style="list-style-type: none">– Built Python ML model for invoice categorization achieving 90% accuracy.– Developed .NET 6 APIs integrated with Azure Blob Storage and SQL Server.– Delivered Angular dashboard with Microsoft Graph API integration and documentation. | |
| Millenia Engineering
<i>Software Engineering Intern</i> | Jun. 2021 – Aug. 2021
<i>Bizerte, Tunisia</i> |
| <ul style="list-style-type: none">– Built Node.js telemetry service for industrial Modbus signal processing.– Designed MongoDB schemas for time-series optimization. | |

PROJECTS

- Personal Portfolio Website** | *.NET 10, React, TypeScript, PostgreSQL, Docker, Azure*

Apr. 2026 - May 2026

 - Designed and built full-stack portfolio demonstrating production-grade architecture and cloud-native practices.
 - Implemented Clean Architecture backend using .NET 10 with JWT authentication, rate limiting, Serilog logging, and SendGrid integration.
 - Developed React + TypeScript frontend deployed on Azure Static Web Apps with custom domain and HTTPS via Cloudflare DNS.
 - Containerized services using Docker and implemented CI/CD pipelines with GitHub Actions and GitHub Container Registry.
 - Integrated PostgreSQL with Entity Framework Core for scalable data persistence.
 - Deployed complete production system with custom domain, SSL, and automated cloud deployment pipeline.

CERTIFICATIONS & ACHIEVEMENTS

- AZ-204: Microsoft Azure Developer Associate**

Aug. 2024
- TOEIC: Professional English Proficiency**

Score: 975/990

EDUCATION

- National School of Computer Science (ENSI)**

Tunisia

Computer Science Engineering Degree

2019 – 2022

LANGUAGES

Arabic (Native)

English (Fluent)
